BIOMIMICRY DESIGN
A Pacific Rim International School Summer Program

COME AND JOIN US!

BIOMIMICRY
BIO=LIFE & MIMICRY=COPY
STUDENTS WILL STUDY NATURE & SUSTAINABILITY TO CREATE & BUILD DESIGNS THAT SOLVE HUMAN CHALLENGES. AN EXCITING CONNECTION BETWEEN NATURAL SCIENCE & INNOVATION!

DESCRIPTION
A STEM oriented experience that inspires students ages 6-18 to find creative solutions using natural science, technology, and art to solve real-world problems through self-motivated, project-based learning. Students will get outside, explore the natural environment, and work with technology to build their own inventions. Chinese or Spanish languages and culture related to the theme are also offered as an option for the students.

1 or 2 WEEK SESSIONS
1 Week: $830 | 2 Weeks: $1660
June 26 through August 18
Mon - Fri from 9-3
Extended Day options available
Week 1: Learn, plan, design
Week 2: Design, build, present
Option to expand projects through multiple sessions!
